EXPERIENCE

Software Developer Intern | Avarthan Innovations LLP   [Jan 2025 - Jun 2025]

Gained hands-on experience in building full-stack applications using Spring Boot, MySQL, Next.js, and Tailwind CSS. Worked on real-time projects involving backend API development, frontend integration, and database management. I also learned API testing using Postman and explored microservices architecture along with containerization using Docker.

Junior Support Engineer | GlowTouch Technologies Private Limited (Now UnifyCX)   [Nov 2022 - Jul 2023]

Demonstrated expertise in troubleshooting server issues and ensuring smooth operations. Provided technical assistance to customers of leading hosting brands (HostGator, Website Builder Site Builder, Gator Builder) via email and chat.

TECHNICAL SKILLS

Languages	: C, Java, PHP, and SQL
Front-End Technologies	: HTML, CSS, JavaScript, Tailwind CSS
Framework & Libraries	: Spring Boot, Next.JS, WordPress
Tools and Operating System	: Git, VS Code, Postman, MS Office Suite, Windows, Linux, cPanel, WHM
DevOps & Architecture	: Docker, Microservices
Database	: MySQL, PostgreSQL
